### FOR IMMEDIATE RELEASE

## MERIDIAN AIR CHARTER ADDS MORE WI-FI TO FLEET

Teterboro, NJ, February 11, 2013 – Meridian, the full-service private aviation company headquartered at Teterboro Airport (TEB) in New Jersey, is pleased to announce that its charter division has recently added Wi-Fi to three more of its fleet aircraft. The aircraft types include a Challenger 601-3R, a Hawker 800SP, and a Citation XLS. The Challenger and Hawker are based at TEB, while the Citation is based at Hayward Executive Airport (HWD) in Hayward, CA.

Meridian Air Charter operates twenty-one managed aircraft based nationally from New York to California. Nineteen of those business jets are available for charter, and among those, eleven are currently equipped with Wi-Fi. Eight are heavy jets, suitable for long range domestic and international trips, while the remaining three are mid-size jets, perfect for domestic or regional destinations.

Mike Moore, Director of Aviation Sales, had this to say, “Clients who fly privately expect a very high level of service from their charter operators. The recent addition of Wi-Fi to three more of our aircraft provides us with the flexibility we need to meet the growing demand of onboard services and amenities. Now we can say the majority of our fleet is equipped with wireless capabilities, and the number will continue to grow. We are already planning to add Wi-Fi to more planes in the near future.”

About Meridian:

Meridian is a full-service, private aviation company based in Teterboro, NJ, located just minutes from New York City. The company has earned numerous industry awards and accolades for its outstanding service and state-of-the-art facility. Meridian owns and operates businesses that include Air Charter, Aircraft Management, Aircraft Maintenance, and a world-class Executive Terminal / FBO.
