

Meridian Air Charter Adds Teterboro Based Falcon 2000

November 30th, 2006, Teterboro, NJ - Meridian Air Charter, the Teterboro, NJ based Private Aviation Services Company, is proud to announce the addition of an 8 passenger Falcon 2000 to their fleet of charter aircraft. The Large Cabin Falcon will be based at Teterboro and will be available for charter.

The Falcon 2000 was born to be a fighter. Climbing 43,000 feet in just 27 minutes, this powerful twinjet can manage high, hot and short runways. It can climb above thunder in the summer and strong westerly headwinds in the winter. Trim lines and sleek design give the Falcon 2000 a strong airport presence, while a long, wide, and high cabin give passengers generous space to conduct business during transcontinental trips. And whether you're traveling 3000 nautical miles nonstop, or spending the day on a series of short hops, the economical operation of this aircraft fits most missions in luxury!

Andrew Ladouceur, Meridian's Director of Charter Sales and Client Services states, "We are very excited about the addition of this Falcon 2000. This aircraft compliments the rest of our fleet perfectly." Meridian truly has the most diverse and state of the art fleet in the premier corporate aviation airport, Teterboro.

The plush leather seats are a full bodied wine color, accented by pecan woodwork. There's a comfortable lavatory with sink, full galley, in which your in flight service staff can accommodate the most lavish dining requirements, and seating to accommodate fourteen passengers. The relaxed atmosphere invites in-flight productivity and greatly reduces the stress of travel. Your travel time can be ever more efficient with 110 volt outlets, a Satellite phone with fax and data capability, or simply sit back on our plush leather seats and enjoy monitoring your flight with Airshow® 4000. You may prefer to be entertained by the on board DVD system with bulkhead & individual seat monitors & headsets or plug in your own MP3 player to one of 2 iPod ports in the main cabin.

This new aircraft is just another milestone in a busy year at Meridian. We opened our new terminal in January, and our FBO, Meridian Teterboro returned to an independent after a successful 20 year relationship with Million Air. Meridian Teterboro now offers a complete suite of professional aviation services:

- Meridian Teterboro-FBO Services
- Meridian Jet Center-FAA authorized repair stations
- Meridian Air Charters
- Meridian Aircraft Managements
- Meridian Jet Center Detailing

For more information on this or any other Jet in our fleet, visit www.meridian.aero, or call one of our travel professionals, 24 hours a day, at 1-800-882-2333.
