FOR IMMEDIATE RELEASE

MERIDIAN JET CENTER NOW CERTIFIED ON BOMBARDIER GLOBALS

Teterboro, NJ, March 16, 2017 – Meridian, the award-winning private aviation company headquartered at Teterboro Airport, is pleased to announce that its FAA-approved repair station is now fully authorized to inspect and repair the Bombardier Global series of aircraft.

This authorization is a significant addition to the wide range of other business jets for which Meridian Jet Center has been certified, including models from Cessna, Dassault, Hawker, and Gulfstream. The Bombardier models added to Meridian's operations specifications are the Global Express BD-700-1A10 and the Global 5000 BD-700-1A11. Operations specifications for all certified aircraft are available on the Maintenance page of the Meridian website.

John Langschultz, VP of Maintenance, was excited about the recent certification. "We now have the ability to perform inspections and repairs on the entire series of Global models, which is critical if you plan to serve the ultra-long range segment. As business jets continue to get larger, and the market for large cabin aircraft continues to grow, we must expand our service offerings in order to remain competitive and continue to serve our customers at a high level."
